Professor John F. Zimmerman
Department of Chemistry
Wabash College
Crawfordsville, Indiana 47933

Dear John:

In confirmation of our recent telephone conversation, I am submitting a report for the MACTLAC Teacher Placement Service for the year 1970-71.

The situation with regard to this Service changed quite drastically during the past year, and consequently I am making the report in abbreviated form. During this year there were no openings communicated to me of any kind. During this same period I had applications from 298 individuals seeking teaching positions. Due to the large number of such applicants, I did not classify them by a subject matter field.

In view of this ratio of applicants to positions, I have serious reservations as to whether there is any need for this Service to be continued, at least at the present time. While I am willing to do whatever the MACTLAC Executive Council feels would be of assistance to those seeking teaching positions, it does not seem to me to be very helpful to be in a position where the only information I can provide is that I have no openings to inform them of. Consequently, I would recommend that the Teacher Placement Service be suspended, at least for one year, and that we review the situation one year from now.

If there is any additional information that I can provide or any clarification of the operation of the Teacher Placement Service, I would be glad to go into more detail. Also I will be glad to meet with you at the luncheon on Saturday, October 9, 1971 in order to make any additional comments that you might wish.

I am looking forward to seeing you at the MACTLAC Meeting at Saint Olaf College.

Sincerely yours,

Arild J. Miller
Director of Admissions
