

Carleton College, Northfield, Minnesota

17 October 1958

Sister Marie James  
Department of Chemistry  
The College of St. Catherine  
St. Paul 5, Minnesota

Dear Sister Marie:

I am very glad to learn that St. Catherine's plans on sharing the host responsibilities at the St. Paul Mactlac meeting. It should be interesting to the members to be able to visit three campuses.

The letters I received from Hamline and St. Thomas extended invitations for the 1960 meeting, rather than for next year. This was due to the assumption that we were all set for 1959. Geographically speaking, a 1959 St. Paul meeting would be ideal, but it appears now that we shall probably accept a long-standing invitation from Valparaiso for 1959. This is not ideal geographically, but the fact that Valparaiso will be celebrating their centennial, and will be prepared to treat us especially well, will probably swing the balance in their favor.

Therefore, I suggest that you, Dr. Larson and Dr. Moore should examine the calanders for 1960, because I have no doubt about the desirability of coming to St. Paul at that time.

Thank you for your continued interest in Mactlac. I look forward to seeing you again at the coming meeting in Beloit.

Sincerely,

Richard W. Ramette
