

August 22, 1952

Dr. C.H. Volwiler
Abbott Laboratories
North Chicago, Illinois

Dear Dr. Volwiler:

We were pleased to learn in your letter of August 15th that you will be able to resolve the potential conflict for November 15th.

You suggested the following titles for the after-dinner talk: The Training and Supply of Scientists and The Scientist's Place in the Future. It appears to us that the latter or some modification is the better choice for the occasion. As explained in an earlier letter, the evening meeting will be a major event in the celebration of Monmouth's Centennial Year. The audience will include members of the Illinois-Iowa Section of the American Chemical Society, participants in the Conference of College Chemistry Teachers, and invited guests from Warren and adjacent counties. Please advise concerning your final selection of titles so that we may include it in our pre-program publicity.

At the time of your visit here we will make arrangements for your comfort at the Hotel Guster in Galesburg -17 miles from Monmouth. Meanwhile we will keep you informed of significant developments in the planning of the program.

Yours sincerely,

S.L. Haldeman, General Chairman
Conference of College Chemistry
Teachers
