

November 23, 1932

Dr. Edward L. Haenisch
Professor of Chemistry and
Chairman of the Department
Wabash College
Crawfordsville, Indiana

Dear Ed.

Thank you for your fine letter. To you belongs the credit of organizing and efficiently conducting the College Chemistry Conference. Out of this very pleasant and profitable association of chemistry teachers has been born an association which will ^{mean} much to the teachers of the mid-west colleges. It is fitting and proper that you have been selected for the honor of being the first president of the new association. We, here in Monmouth, feel that no one else could have done such an outstanding piece of work for Monmouth and the mid-west group as you have done. We appreciated deeply your whole hearted activity and significant accomplishment.

We received your expense account. This will be processed through the college office. If you do not receive check for the amount by about December 10th please let us know.

You may file the enclosed Review Atlas clippings with your other conference notes. The enclosed group report was mailed to us but should have been sent to you for editing.

The chemistry staff joins me in sending our hearty good wishes and thanks for your excellent work in making the conference one long to be remembered.

Very sincerely yours,

W.S. Haldeman
