Illinois-Iowa Section, American Chemical Society
Clinton Foods Incorporated
Clinton, Iowa
Att: Dr. W. R. Fetzner

Dear Sir:

It is a pleasure for me to welcome members of the Illinois-Iowa Section of the American Chemical Society to the Monmouth campus. We are pleased that the facilities of the College can be used for your regular monthly meeting and that you have been willing for us to feature it as one of the major events of Monmouth's Centennial Program.

I have been advised by Professor W. S. Haldeman that it has been the custom for some years to meet here during the autumn. He has told me something of the plans for the meeting scheduled for the evening of November 18. I hope to be present to greet the members of the Section and to hear Dr. Volwiler.

Yours sincerely,

MONMOUTH COLLEGE

Robert W. Gibson
President
