Dr. William A. Deskin
Secretary-Treasurer
Midwestern Association of Chemistry Teachers
in Liberal Arts Colleges
Department of Chemistry
Cornell College
Mount Vernon, Iowa

Dear Dr. Deskin:

Professor Joseph P. Huselton of our Department of Chemistry and I agreed that we would like to extend an invitation to the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to hold their next, or a subsequent, annual meeting of the Association at William Jewell College. Dr. Frank G. Edson, Head of the Department of Chemistry, joins us in this invitation.

We have always emphasized the natural sciences in our curriculum at William Jewell and we feel that the meeting of your Association here would be an inspiration to the Department of Chemistry, Physics and Biology and would also be interesting to all the departments of the College.

I will appreciate it if you will convey this invitation to those who determine your place of meeting. If you could come to William Jewell College our administration, faculty and students will do everything possible to help you in the plans for a successful meeting.

Cordially,

Walter Pope Binns

Dear Dr. Miller:

I am writing this letter to extend again an invitation to the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to hold its annual meeting in 1963 at Wabash College.

All of us here would be happy to have this group meet on our campus and I know this would be a particular pleasure for Dr. Haenisch since he was one of the men who originally organized this group and served as its first president. I feel sure that you would find our dining room facilities and our space for group meetings very convenient for your purposes and we shall be glad to cooperate fully in the matter of arranging housing in local hotels and motels.

I sincerely hope that this year your Executive Committee will find it possible to accept our invitation. We shall be delighted to have you here if you do accept it.

Yours sincerely,

B. K. Trippet
