3:00 - 3:15 Recess

3:15 - 4:30 Business Meeting followed by adjournment

MIDWEST ASSOCIATION OF CHEMISTRY TEACHERS IN LIBERAL ARTS COLLEGES

Your local committee would like to have you indicate your desires regarding industrial trips which will be arranged for Friday morning, ONLY if sufficient interest is evidenced by the returns on these sheets.

There are a number of interesting local industries in this locality, but none of a strictly chemical nature. Please indicate by a check in the appropriate box whether you would care to take part in a trip through any of the following plants and would plan to arrive in Grinnell early enough Friday morning, Oct. 29, to do so. In this preliminary check, you may indicate interest in more than one of the possibilities, since the final arrangements will include only one or two trips chosen on the basis of this vote. NOTE: This preliminary questionnaire does not commit you to any trip. RESERVATIONS for any trips will be made later at the time you are asked to return ROOM RESERVATIONS.

Possible trip No. 1 Visit to Maytag Manufacturing Company, Newton, Iowa. Plant No. 1 producing Washing Machines. Bus would leave at 9:15 or 9:30 A.M. and return around noon. Cost of trip about \$1.00

Possible trip No. 2 Visit to Cargill Hybrid Corn Co. or De Kalb Hybrid Corn Co. Grinnell, Iowa. 1 hour trip.

Possible trip No. 3 Visits to local leather industries: Morrisson-Shultz Glove Factory, Grinnell Shoe Factory, De Long Jacket Factory about 2 hours.

~~Possible~~ trip No. 4 Cornland Fertilizer Plant. Chemical fertilizer production and mixing. about 1 hour.

Women's Program We are tentatively planning a limited program for those ladies who are not chemists and who do not plan to attend the regular sessions of the conference. One of the features of this would be a Friday afternoon Tea, another would be a Saturday morning tour of Grinnell's four new church buildings. Please indicate interest in the development of such a program by a CHECK in the box.

Return this sheet immediately, directly to:

W. C. Celko, chairman local committee
Department of Chemistry
Grinnell College, Grinnell, Iowa.

Do Not Send to the Secretary.
