

November 21, 1952

Dr. E. H. Volwiler, President
Abbott Laboratories
North Chicago, Illinois

Dear Dr. Volwiler:

We greatly appreciate the fact that you came to Monmouth and delivered your excellent address. It was a worthy climax to our conference of college chemistry teachers. Please accept our thanks on behalf of the college and the visitors.

The final check up shows that ninety two college chemistry teachers were here for the conference. These came from fifty five institutions and nine states. The group organized the association of the mid-west liberal arts college chemistry teachers and will rotate annually. The next meeting will be held in Appleton, Wisconsin. Dr. Edward L. Harnisch who was our director last week, is the president and Dr. Ben T. Shawver, the secretary, for the coming year.

We are about ready to present our expense account to the college office and will appreciate receiving yours as soon as convenient. Be sure to include hotel, meals, car fare, taxi, etc., for both Mrs. Volwiler and you.

Dr. Shawver asked me to find out whether or not it would be convenient for you to send us a carbon copy of your address.

With kind personal regards to Mrs. Volwiler and you, I am

Sincerely yours,

W.S. Maldeman
