Dr. Richard E. Bayer
Department of Chemistry
Carroll College
Waukesha, Wisconsin

Dear Dick Bayer:

On behalf of Carroll College, I wish to extend an invitation to the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to hold its annual meeting at Carroll College sometime in the next few years. It is my understanding that invitations have been accepted for the next succeeding years and that the first likely year would be the 1970 annual meeting. And this is a cordial invitation to consider Carroll College as the place for the 1970 meeting.

The faculty of our Chemistry Department of course unite with me in issuing this invitation, and the Carroll College faculty as a whole is always deeply interested in encouraging professional meetings on the Carroll College campus.

Sincerely,

Robert D. Steele

EARLHAM COLLEGE

RICHMOND, INDIANA

THE PRESIDENT

November 9, 1965

Dr. Richard E. Bayer
Secretary-Treasurer of MACTIAC
Department of Chemistry
Carroll College
Waukesha, Wisconsin

Dear Dr. Bayer:

On behalf of all of us here at Earlham, I wish to extend an invitation for the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to hold its annual meeting at Earlham College sometime in the next few years. Your Association held one of its early meetings on our campus in 1955, and the Earlham Chemistry Department has expressed considerable interest in having the Association return for another meeting here. Our faculty are engaged in several new programs in science education which we believe will be of general interest to MACTIAC members.

We understand that the Association now has several invitations on hand and that our invitation is not likely to be accepted before 1969 at the earliest. We would be pleased to have the Association meet here in 1969 or a subsequent year. Because of the likely construction of additional science facilities within the next few years, the optimum year for a meeting at Earlham can best be determined at a later date.

Sincerely,

Landrum R. Bolling

President Miller Upton
Beloit College
Beloit, Wisconsin

Dear President Upton:

Thank you for your kind letter of May 26, 1965, extending an invitation for the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to meet at Beloit College in October 1968.

This invitation will be presented to the executive committee of the Association for further consideration at our fall meeting. It is unlikely, however, that a final decision on the location for the 1968 meeting will be made until the fall of 1966.

Sincerely yours,

Wilmer J. Stratton

BELOIT COLLEGE

BELOIT, WISCONSIN

OFFICE OF THE PRESIDENT

May 26, 1965

Professor Wilmer J. Stratton
Secretary-Treasurer of MACTLAC
Department of Chemistry
Earlham College
Richmond, Indiana

Dear Professor Stratton:

As President of Beloit College I wish to invite the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to have its fall meeting in October of 1968 on the campus of Beloit College.

The last time your Association met in Beloit was in October, 1958, and this would enable us to serve you as host again ten years later. More importantly, however, by this date we will just have completed one year earlier our new science building into which has gone much thought and planning. We would like to be able to partially inaugurate this building by enabling it to support our hosting of your group. We do, of course, extend this invitation with the full desire to provide for the regular accommodations and hospitality. I hope it will be possible for your organization to see fit to accept our invitation.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Miller Upton".

Miller Upton
