Earlham College
Richmond, Indiana

President H. G. Hammon
Drake University
Des Moines 11, Iowa

Dear President Hammons:

Thank you for your letter of November 4 extending an invitation for our Association to meet on your campus in 1966. The Executive Council will not act on invitations for the 1966 meeting until next fall, so I shall hold your letter until that time. Although we have several invitations in hand, we will be glad to give your invitation serious consideration.

Sincerely yours,

Wilmer J. Stratton
Secretary-Treasurer

President Melvin W. Hyde
Transville College
Transville 4, Indiana

Dear President Hyde:

At our recent meeting at Wabash College, the Executive Council of KACUWAS considered your invitation for the 1965 meeting to be held at Transville College. It was the feeling of the Council that since we cover a fairly wide geographical area, it did not seem appropriate to hold the 1965 meeting so close to the place of this year's meeting. We regret, therefore, that we were unable to accept your invitation. We would, of course, be happy to consider meeting at Transville at some future date.

Sincerely yours,

Wilmer J. Stratton
Secretary-Treasurer

Melvin W. Hyde
PRESIDENT

October 1, 1963

Dr. Wilmer J. Stratton, Secretary-Treasurer
The Executive Council
Midwestern Association of Chemistry Teachers
Earlham College
Richmond, Indiana

Dear Dr. Stratton:

Through the courtesy of Dr. Lowell E. Weller, Head of the Department of Chemistry at Evansville College, I have read the last paragraph of the September 20, 1963, general letter which indicates that the Executive Council is "ready to receive and act on invitations for future meetings." The purpose of this note is to invite the Association to our campus for its 1965 meeting. We believe you would be pleased with the facilities and that you would enjoy coming to southern Indiana for this important annual meeting. Dr. Weller has acquainted me with certain of the previous campus arrangements and thus we understand your needs and desires.

Our invitation is a very warm one and we hope very much that the Council may respond favorably. We would be grateful for early word from you following the Executive Council action.

Sincerely,

Melvin W. Hyde

H. G. HARMON, PRESIDENT
DES MOINES II, IOWA
November 4, 1963

Mr. Wilmer J. Stratton
Earlham College
Richmond, Indiana

Dear Mr. Stratton:

In a recent conversation with Mr. William H. Coppock, Professor and Head of our Chemistry Department, he expressed an interest in having Drake University be host to the Midwest Association of Chemistry Teachers in Liberal Arts Colleges for their annual meeting in 1966. This seems to me to be a splendid idea, and I hope it can be accomplished.

To this end, I formally invite the Midwest Association to meet on this campus for that occasion. I assure you that the trustees, faculty and students join me in this invitation, and in the hope that it may be our pleasure and honor to have the Chemistry Teachers of Liberal Arts Colleges with us. I believe our facilities will be wholly adequate to your needs. Your presence would be a pleasure indeed.

If there is further specific information you would like, please ask for it. We will welcome an opportunity to support this invitation in any helpful way.

Sincerely,

November 11, 1963

Dr. Adrian Docken
Department of Chemistry
Luther College
Decorah, Iowa

Dear Dr. Docken:

Thank you for your letter of October 21 concerning the invitation from Luther College for a future MACFLAC meeting. Through a mix-up I am afraid that we did not have your invitation in front of us when we made our decision for the 1965 meeting. During the past year I took over the Secretary's duties from Bill Deskin, and in the process of transferring the records the file of invitations completely escaped my attention. I find now that we do have a long-standing invitation from Luther College, and I am very sorry that this was overlooked. I shall certainly see to it that this invitation is given consideration next year.

Sincerely yours,

William J. Stratton

LAWRENCE COLLEGE
APPLETON, WISCONSIN

OFFICE OF THE PRESIDENT

Accepted for 1965

October 4, 1963

Dear Dr. Stratton,

At the suggestion of Professor Robert M. Rosenberg, I am writing to extend an invitation to the Midwestern Association of Chemistry Teachers in Liberal Arts Colleges to convene at Lawrence College for their meeting in October, 1965. This timing would be particularly appropriate for our institution. Perhaps you have heard that we are presently constructing a new Science Hall on our campus and we expect to move into the splendid new accommodations sometime in the fall of 1964.

Well in advance of your scheduled meeting, we will have perfected our program in the building so that things should be operating smoothly. We have ample facilities here to handle the meetings of the Association as well as the meals which you would desire. Appleton now is fortunate in having a considerable number of good motels as well as a downtown hotel, and I think that housing would not present unusual difficulties.

Thus we would be extremely pleased if the members of the Association would consider our invitation and elect to have their meeting in 1965 here on the Lawrence Campus.

Cordially yours,

Curtis W. Tarr

LUTHER COLLEGE

DECORAH, IOWA

Department of Chemistry

October 31, 1933

Dr. Wilmer Stratton
Luther College
Richmond, Indiana

Dear Dr. Stratton:

We were disappointed to learn from George Kaulson, of our staff, who was at the school meeting, that our invitation to hold the 1933 meeting here had been lost or overlooked.

We are anxious to have NACAC here, so please put our invitation on file again.

Kaulson understood that the 1933 meeting had already been promised to Ripon. We would be interested in either 1933 or 1934 on the first open date.

Sincerely yours,

Adrian Doeken
Professor of Chemistry
