Please note that \$341.00 in cash was left at Monmouth in partial payment of the institutional support of \$450.00 from MACTLAC. At that time I was under the impression that that was the only cash in my possession. It was given to Monmouth so that I would have only the checks to deposit. They amounted to \$992.00. When the final bills were submitted an audit of the receipts showed up the discrepancy.

A thorough search of all materials brought back from that meeting revealed \$14.00 in cash. There is still \$8.62 that cannot be accounted for in the report.

Of additional interest are the following:

Total Dues collected Oct. to May	\$196.00
Total Registration collected Oct.	<u>286.00</u>
Total	482.00

This figure, \$482.00, is \$32.00 over the \$450.00 allotted to host institutions. The balance of \$32.00 is not sufficient to support postage, computer labels , executive luncheons, the secretary-treasurers stipen, etc. Does MACTLAC need to increase its registration fee, its dues or both?
