Dear Dr. Bosch:

I am happy to send this letter to support the nomination of Dr. Enno Wolthuis for honorary membership in MACTLAC. He was my immediate predecessor as Chairman of the Chemistry Department at Calvin College, and long provided stimulating and effective leadership. He has contributed substantially to MACTLAC since its early days, and to chemical education for an even longer period. The energy and enthusiasm with which he pursued his work has always inspired us all.

Very truly yours,

William VanDoorne
