

*W.A. Haldeman*

December 3, 1952

Professor M. W. Skougstad  
Department of Chemistry  
St. Olaf College  
Northfield, Minnesota

Dear Professor Skougstad:

of December  
Thank you for your letter 1, and for the summary report of the Analytical group discussions. This report has been read and will be mailed to Dr. Maenisch. Later all reports will be returned to us in Monmouth and arrangements will be made to have them mimeographed and mailed to each participant of the conference.

It was pleasant to have you here and participate in the conference. We hope to meet more frequently in the future.

Sincerely yours,

W.A. Haldeman
