Dr. Richard W. Ramette  
Department of Chemistry  
Carleton College  
Northfield, Minnesota

Dear Dick:

Enclosed is the report of our group discussion at the MACTLAC meeting. I apologize for the delay, for which I have no excuse. In terms of separating the summary from the longer report, that portion of the report before the detailed outline could certainly serve as a summary.

Thank you for your letter about the Conference at Carleton this summer. Since I am not now teaching analytical I am not eligible to attend. In addition I feel reasonably well acquainted with most of the fields to be treated.

With best regards.

Sincerely,

*Bob Rosenberg*
