Dear Dr. Fetzner:

Would it be advisable or not to invite the sections of the American Chemical Society adjacent to Illinois to attend the Illinois-Iowa section meeting in Monmouth, Saturday evening, November 15 to hear Dr. Volwiler? The following are the sections in question: Canton, Missouri, Peoria and the University of Iowa. To save you time, please give us your yes or no answer in the enclosed addressed envelope.

Yours sincerely,

M. S. Waldeman
