

W. R. FETZER, PH.D.

CHEMIST

754 FIFTH AVENUE SOUTH
CLINTON, IOWA

October 11, 1952

Professor W.S. Haldeman,
Monmouth College,
Monmouth, Illinois.

Dear Professor Haldeman:

I have noted your letter of the 7th and believe that your meeting is proceeding satisfactorily. I shall be glad to introduce Dr. Volwiler since I have known him for so a long a time.

As regards inviting the ladies, I believe that it is up to you. If Dr. Volwiler has given an indication of his talk, you would be in a much better position to decide. If his talk is general I am of the opinion that it would be a good idea. However you have the problem of feeding the group to consider. Whatever you decided will be alright with me for I sort of believe in Local Option in such matters.

Sincerely,
