Dear Applicant,

Your application has been accepted. Your license is valid for 2 years for teaching your students. You can send around the license key within your class in email.

After login you can access your license key from the [My Licenses page](#).

YOUR CONDITIONS IN BRIEF:

- **Software covered:** Most of ChemAxon's desktop tools, for the full list visit [this page](#).
- **License for your faculty:** This license is running under your name, but you can share the key with your students or colleagues.
- **Non profit:** You are not allowed to use the license key in research that generates any revenue.
- **Renew your license:** You should visit [your old application here](#), and hit the "Request for renewal" button. As long as you are teaching, we will renew your license upon request after your 2 year usage period is up.
- **New software versions:** As long as your license is valid, you can download newer versions too.

SO, WHAT'S NEXT?

- **Access your license key** from the [My Licenses page](#), and copy your key to the ChemAxon License Manager.
- **Download the software** you want to use. The ChemAxon License Manager will be downloaded with any of our software, and it will be ready to use. However, License Manager might not launch automatically, so search for "LicenseManager", click on the "License server configuration" menu item (on the left), and paste your license key. Hit "Apply", and you're done!
- **Support:** If you need help, search & ask your questions on our [ticket system](#).

ACKNOWLEDGEMENT

Please cite us, wherever you are using our tools and applications: scientific posters, presentations, papers etc. We are always happy to see our software at work, so let us know about what you're doing! You can cite us using the following template: Product was used for this and that, Product version 20.11.0, ChemAxon (<https://www.chemaxon.com>).

Best Regards,
ChemAxon Academic License Team
