Secretary of MACTLAC
FROM: Sister Frances Crean
RE: Nomination of Jerry Baird
for Honorary Membership in MACTLAC

I wish to nominate Jerry Baird for honorary membership in MACTLAC. Jerry Baird has faithfully attended MACTLAC meetings for many years. The members of MACTLAC have benefitted from his knowledge of available government funding, equipment, and laboratory facilities. Likewise, Jerry Baird has been very effective in his role in the Education Office at Argonne Laboratory. He understood the needs of educators and he worked very hard so that using equipment and the library at Argonne was as easy as possible for educators and students. He also hosted many college events on the Argonne Campus. As administrators came and went we all knew that if we gave Jerry a call he'd put us in touch with the right person to get our job done.

Therefore, as Jerry Baird retires from Argonne National Laboratory it seems most appropriate for us educators to express our appreciation of Jerry's efforts on our behalf by bestowing upon him honorary membership in the Midwest Association of Chemistry Teachers in Liberal Arts Colleges.
