MIDWESTERN ASSOCIATION OF CHEMISTRY TEACHERS
IN LIBERAL ARTS COLLEGES

Attention of all current MACTLAC members is called to the
continued functioning of the MACTLAC Placement Service and
all interested individuals are invited to participate. The
system works as follows:

> In the fall, requests are sent to all MACTLAC schools
> to register with the Placement Service the openings that
> they expect to be filling during the current academic
> year. These responses will be collected and duplicated
> by the Service and sent to faculty presently teaching at
> MACTLAC colleges (defined as colleges having at least one
> active member of MACTLAC) who requested the listing. In
> the past, a mailing has gone out in late January and an
> up-date in middle March.

> In addition, each participant requesting the listing
> will be asked to complete a Placement Form which will
> be placed on file at the Placement Service. This file
> has proven useful in the late and early summer, when
> institutions telephone the service in order to identify
> MACTLAC faculty still searching for a position.

> Finally, it is understood that participation in the
> Service by an individual carries with it the responsi-
> bility to the report to the Service immediately when a
> new job is accepted, so that the listing may be appro-
> priately corrected.

If you expect to be leaving your present employment at the
end of this year and wish to utilize the Placement Service,
you should write to:

> Professor Quentin R. Petersen
> Chairman, Department of Chemistry
> Central Michigan University
> Mount Pleasant, MI 48859

For the purposes of setting some standards as to who might
apply for these Placement Services, the preceding guidelines
have been accepted by the Executive Council. Eligible mem-
bers as described in the above paragraphs plus faculty mem-
bers who have previously held regular teaching appointments
at any MACTLAC schools defined as above qualify. The Service
is not intended for the use of graduates of MACTLAC schools.

Cordially,

Sister Mary Thompson
