

MIDWESTERN ASSOCIATION OF CHEMISTRY TEACHERS
IN LIBERAL ARTS COLLEGES

25 September 1959

OFFICE OF THE SECRETARY-TREASURER
Carleton College
Northfield, Minnesota

MACTLAC member:

The enclosed information concerns the coming meeting to be held on October 23-24 at Valparaiso University, which is celebrating its centennial year. The meeting will be especially good, and I hope that you are planning to attend.

You will notice that the discussion group program has been more fully planned than in the past, and that discussion leaders have been chosen in advance. This is in response to the feeling that we usually have wasted too much valuable time before getting our discussions moving. It will be helpful to the leader of the group which interests you if you will write and express any particular questions or interests which you want included in the discussion.

Please note also that the enclosed envelope allows preregistration and payment of dues. We hope that all members will cooperate in this way as soon as plans are clear, whether planning to attend or not. If you are reluctant to enclose payment for fear of changing plans, please mail the filled-out envelope anyway with indications of your probable plans, no later than October 7.

The \$ 1.00 registration fee will be fully credited toward current dues for members. If you are in arrears, the amount is indicated on the envelope. The banquet meal (which will be one of Valparaiso's famous smorgasbords!) will be \$ 1.75, while the Saturday luncheon will be \$ 1.40. Thus, full participation involves only \$ 4.15 plus any back dues. You will be on your own for Saturday breakfast.

The executive council is always ready to receive and act on invitations for future meetings. We have not yet considered the location for the 1962 meeting, and if your president would like to have your institution serve as host at that time, he should mail the invitation to the secretary-treasurer.

I look forward to seeing an enthusiastic attendance at Valparaiso. Until then I remain,

Sincerely,

Richard W. Ramette
