Dear Member:

Once again it is time to make arrangements for the annual meeting. As the enclosed program will show, we are headed for a full two days of stimulating activity. Please show the enclosed material to any of your colleagues who are not members, and let them know how rewarding a MACTLAC meeting can be.

On a trial basis is the new idea of having a 'gadget' exhibit by MACTLAC members. It is hoped that you will not hesitate to bring any device, however simple or complex, concave or convex, which may be of interest to other chemists. It might be a gadget to use in a classroom demonstration, one which has been useful as a laboratory tool, or anything that you think at least one other member might like to use.

I have a special request to make: With over 80 colleges in the MACTLAC area it is impossible to maintain a truly up-to-date file of members. Some move out of the area, others move in, some change schools within the area, others retire, etc. I would greatly appreciate it if one member from each college would send a list of his colleagues who are eligible for membership. Please don't leave this for someone else to do unless you are sure they will follow through. The Constitution states that 'Active membership shall include those persons who are teachers in direct charge of courses in chemistry as regular faculty members' in the seven state area. Associate membership is open (subject to approval) to any interested person. Eligible persons may maintain membership privileges either by registering at the annual meeting or by sending annual dues of \$ 1.00.

Names of persons who have not paid dues for the past two years have been dropped from the membership list. Reinstatement will follow correction of the dues deficiency.

Please return the enclosed postcard, even if you cannot make the meeting this year, and indicate your correct address.

Hope to see you in Parkville-

Sincerely,

Richard W. Ramette
Secretary-Treasurer, MACTLAC
Carleton College
Northfield, Minnesota

P.S. The records show that you are one year in arrears for dues. This may be corrected at the meeting, but if you will not be there you may send \$2.00 (\$1.00 for last year, \$1.00 for the coming year) in order to maintain your membership privileges.

Dear Member:

Once again it is time to make arrangements for the annual meeting. As the enclosed program will show, we are headed for two full days of stimulating activity. Please show the enclosed material to any of your colleagues who are not members, and tell them how rewarding a MACTLAC meeting can be.

I am sorry to see that the records show no dues payment by you for the past years. In accordance with the by-laws of our constitution it will be necessary to remove your name from the membership list unless this is corrected by the time of the meeting next month. If you desire to maintain your membership privileges you may either pay the back dues at the meeting, or send them directly through the mail. In any case, it will be appreciated if you will please fill out the blank below and return it.

Hope to see you in Parkville-

Sincerely,
Richard W. Ramette
